

Sontia Logic Limited

Sontia appoints Dr Hermann Hauser to Advisory Board

PRESS RELEASE: 5th May 2009

Sontia Logic Limited is delighted to announce the appointment of Dr Hermann Hauser to its newly-created advisory Board.

Hermann co-founded Amadeus Capital Partners in 1997. In his long and successful history as an entrepreneur and venture capitalist, he has founded or co-founded companies in a wide range of technology sectors. These include Acorn Computers, Active Book Company, Virata, Net Products, NetChannel, and Cambridge Network Limited. He was a founder director of IQ (Bio), IXI Limited, Vocalis, SynGenix, Advanced Displays Limited, Electronic Share Information Limited and E*Trade UK. At Amadeus Hermann has been a non-executive director of many investee companies including [CSR](#), which provides single chip wireless solutions supporting communications over short-range radio links, and [Plastic Logic](#), which has developed a process for producing flexible plastic transistors for use in computer displays.

Hermann holds an MA in Physics from Vienna University and a PhD in Physics from the Cavendish Laboratory, Cambridge. He is a Fellow of the Institute of Physics and of the Royal Academy of Engineering and an Honorary Fellow of King's College, Cambridge. Hermann holds honorary doctorates from the Universities of Bath, Loughborough and from Anglia Polytechnic, and was awarded an Honorary CBE for 'innovative service to the UK enterprise sector' in 2001. In 2004, he was made a member of the Government's Council for Science & Technology. Austrian by birth, Hermann speaks German, English, Italian and French.

Mark Bernstein, Chairman, stated; "Hermann's involvement in our company, both as an advisor and a shareholder is a massive vote of confidence in us. For many of us who have spent our careers in Britain's high tech sector, Hermann is the pioneer who has inspired us – he is a legend. Having worked with Hermann in the past, I know just how much he will add to our advisory team".

Hermann Hauser commented; "Chris Vernon has developed an innovative approach which appears to solve many of the problems traditionally associated with digital sound processing. I look forwards to advising Chris, Mark and their team".
